- Corka Kale is an exciting new high palatable, intermediate stem Kale to Specialty Seeds New Zealand.
- Corka Kale is an intermediate stem type meaning that it doesn't have thick stems like giant kales, even at lower plant densities.
- Corka Kale has a high yield potential of between 15-18 tonne DM / ha
- Corka Kale is suitable for all stock types.
- Corka Kale has very good cool winter hardiness.
- Corka Kale has a recommended sowing rate of 5kg / ha
