SuperSonic

Winter Active Lucerne

The only winter active Lucerne in New Zealand.

For more information on
this mix please go to
www.specseed.co.nz

- SuperSonic is a premium lucerne cultivar that is ideal in closely grazed pastures and intensive forage cutting programmes.
- SuperSonic has a high leaf to stem ratio providing high protein and digestibility.
- SuperSonic is highly winter active (rating 9) and has strong late autumn / winter / early spring growth.
- Icon was selected on plant characteristics including improved disease and pest resistance.
